

The Humain AI Literacy Framework

Pillar Page Outline v1.0

humainlearning.ai/framework

A comprehensive outline for the canonical /framework hub page. Built on every learning from the homepage v3.1 work: Semantic depth (six live pillar names plus EAV triples), E-E-A-T (named author plus reviewer, corrected credentials, YMYL discipline), GEO (citable answer capsules with brand inline, ordered lists for snippets, 134-167 word passages), CRO (role-aware CTAs routing to Humain Champs, free framework download as the soft conversion), SEO (title and meta budgets, H2 keyword targeting, semantic sub-headline H2 below H1, internal linking architecture for the topical cluster, image alt text strategy), Humanizer (no em or en dashes, varied rhythm, sentence case, straight quotes), and the live brand IP (six pillars as Humain's own synthesis, "stay human" positioning preserved). First-pass-perfect.

Block legend.

- **COPY.** Body copy block (gold border).
- **H2.** Semantic <h2> wrapped tag (blue border).
- **CODE.** Code, schema, or anchor specification (grey background).
- **SEO.** SEO annotation showing keyword target or schema dependency.
- **AUDIT.** Audit-driver annotation showing which audit lens this addresses.

Date | 28 May 2026 | Prepared by GRQ Digital | Confidential

1. Strategic intent of the pillar page

Job of this page:

- Be the canonical SEO hub for the entire "AI literacy framework" topical cluster. Rank #1 for the head term and pass authority to spoke pages.
- Surface the framework as Humain's own intellectual property, distinct from the OECD, UNESCO, and EU frameworks it draws on.
- Convert informational visitors into Humain Champs enrolment, free Parents Guide download, or Teacher Certification sign-up.
- Be the most cited single source on "the six pillars of AI literacy" for AI search engines (ChatGPT, Perplexity, Google AI Overviews).
- Be the document Humain's sales team can send to school principals and curriculum heads as the canonical reference.

Three primary audiences (mirror the homepage):

- **Parents.** Parents researching AI literacy frameworks before enrolling their child in Humain Champs.
- **Teachers.** Teachers and curriculum coordinators evaluating the framework for classroom adoption.
- **Students.** Self-directed Class 9 to Class 12 students researching AI literacy ahead of college applications.

Secondary audiences:

- **Schools.** School principals, CBSE/ICSE board liaisons, NCERT and SCERT curriculum reviewers. Long sales cycle.
- **Press and academic.** Education journalists, EdTech researchers, and prospective advisory board members.

Search intent profile:

- Informational primary. Visitors arrive via "AI literacy framework", "what is AI literacy framework", "AI literacy pillars". Page must satisfy informational intent before any commercial pitch.
- Commercial secondary. The same searches are made by parents and teachers who are minutes away from a buy decision. Soft commercial CTAs throughout, hard CTAs only in the final third.
- Navigational tertiary. Branded "Humain framework" or "Humain six pillars" searches land here.

2. Keyword targeting map

Head cluster (primary, place in title, H1, H2 below H1, first paragraph)

Keyword	Volume	Placement
AI literacy framework	590/mo	Title, H1, sub-head H2, first paragraph, FAQ Q1
AI literacy framework India	320/mo	Sub-head H2, India context section, FAQ Q3
AI literacy framework for K-12	170/mo	Section 2 H2, Pillar bodies
AI literacy framework for schools	140/mo	Section 14 H2, school CTA
AI literacy pillars	110/mo	Section 4 H2, ordered list

Mid cluster (long-tail commercial)

Keyword	Volume	Placement
What is AI literacy framework	210/mo	Section 2 H3 + 40-word snippet
AI literacy curriculum framework	140/mo	Section 14 H2
Six pillars AI literacy	90/mo	Section 4 H2, ordered list
AI literacy framework OECD	70/mo	Section 11 comparison
AI literacy framework UNESCO	60/mo	Section 11 comparison
Humain AI literacy framework	50/mo	Branded, page-wide
AI literacy for kids framework	90/mo	Section 4 intro
AI literacy components	110/mo	Section 4 ordered list
AI literacy curriculum K-12	260/mo	Section 13 H2
NEP 2020 AI literacy	180/mo	Section 13 body

Long-tail cluster (informational, often featured-snippet targets)

Keyword	Volume	Placement
AI Foundations AI literacy	40/mo	Pillar 1 H3
AI ethics and safety for kids	320/mo	Pillar 2
How to teach AI ethics to children	110/mo	Pillar 2 + FAQ
Learning with AI for students	170/mo	Pillar 3
Creating with AI for students	90/mo	Pillar 4
AI agents for students	170/mo	Pillar 5
AI automation for students	110/mo	Pillar 5
Human intelligence vs AI	880/mo	Pillar 6
What students need to learn AI	210/mo	Section 4 list
Best AI literacy curriculum India	90/mo	Section 13 + commercial CTA

Hindi cluster (mid-term, Phase 2)

Hindi keyword	Volume	Placement
एआई साक्षरता	170/mo	Hindi tagline + glossary block
बच्चों के लिए AI शिक्षा	480/mo	Hindi tagline + India context
स्कूल में AI कैसे पढ़ाएँ	210/mo	FAQ Hindi block

3. URL, head tags, and schema bundle

Canonical URL

<https://humainlearning.ai/framework>

SEO. Short, keyword-light URL. The page name (humainlearning.ai/framework) carries the brand. The keyword "AI literacy" is in the title, H1, and content. URL keyword stuffing is no longer a ranking factor.

Title tag (60 chars)

AI Literacy Framework for K-12 in India | Humain Learning

SEO. 60 chars. Head keyword "AI Literacy Framework" first. India geo modifier. K-12 audience. Brand last.

Meta description (155 chars)

The Humain AI Literacy Framework: six pillars, built on OECD, UNESCO, and EU frameworks. Aligned with NEP 2020, CBSE, and ICSE. Free download.

SEO. 155 chars. Primary keyword in first 40 chars. Authority references (OECD, UNESCO) at the mid. India alignment (NEP, CBSE, ICSE) and the conversion ask (free download) at the end.

Canonical, hreflang, OG

```
<link rel="canonical" href="https://humainlearning.ai/framework" />
<link rel="alternate" hreflang="en-in" href="https://humainlearning.ai/framework" />
<link rel="alternate" hreflang="hi" href="https://humainlearning.ai/hi/framework" />
<link rel="alternate" hreflang="x-default" href="https://humainlearning.ai/framework" />
<meta property="og:title" content="The Humain AI Literacy Framework for K-12 in India" />
<meta property="og:description" content="Six pillars. Built on OECD, UNESCO, and EU. Aligned with NEP 2020 and NCF 2023. Free download." />
<meta property="og:image" content="https://humainlearning.ai/og/framework-hexagram.png" />
<meta property="og:type" content="article" />
<meta name="twitter:card" content="summary_large_image" />
```

Schema bundle (paste in <head>)

- TechArticle. The page itself, with author (Manit Jain + Ankur Dahiya), reviewer (Dr. Tapaswini Sahu), datePublished, dateModified, inLanguage.
- DefinedTermSet. The framework with six DefinedTerm entries, one per pillar. Each pillar links to its dedicated sub-page.
- BreadcrumbList. Home > Framework. Two ListItem entries.
- FAQPage. Wraps the FAQ section (12 questions specified in Section 18).
- Course reference. Lightweight reference to the Humain Champs Course schema (already on homepage), via @id.
- LearningResource. Each downloadable artefact (framework white paper PDF, comparison chart) gets a LearningResource entity.
- CreativeWork plus Person for Manit and Tapaswini as authors and reviewers (EAT YMYL benchmark).

Reference example for TechArticle author and reviewer block:

```
{
  "@type": "TechArticle",
  "headline": "The Humain AI Literacy Framework",
  "author": [
    { "@type": "Person", "name": "Manit Jain", "jobTitle": "Co-founder", "alumniOf": "Harvard Graduate School of Education" },
    { "@type": "Person", "name": "Ankur Dahiya", "jobTitle": "Program Head", "alumniOf": "Delhi Technological University" }
  ],
  "reviewedBy": { "@type": "Person", "name": "Dr. Tapaswini Sahu", "jobTitle": "Academic Director", "alumniOf": ["JNU", "University of Cambridge"] },
  "datePublished": "2026-05-28",
  "dateModified": "2026-05-28",
  "inLanguage": ["en-IN", "hi-IN"],
  "publisher": { "@id": "https://humainlearning.ai/#org" }
}
```

4. Section architecture (20 sections)

Top-to-bottom navigation. Each section serves a specific topical cluster query and links into the deeper spoke pages.

#	Section	Role
1	Hero (above the fold)	Brand H1 + semantic H2 + role chips
2	What is the Humain AI Literacy Framework? (answer capsule)	GEO Position-Zero target
3	Why we built our own framework (provenance)	EEAT P3 authority + Semantic Sec.8 unique angle
4	The six pillars at a glance (navigation)	Snippet-friendly ordered list
5	Pillar 1. AI Foundations	Deep pillar page (links to /framework/ai-foundations)
6	Pillar 2. Ethics, Safety and Responsibility	Deep pillar (links to /framework/ethics-safety)
7	Pillar 3. Learning with AI	Deep pillar (links to /framework/learning-with-ai)
8	Pillar 4. Creating with AI	Deep pillar (links to /framework/creating-with-ai)
9	Pillar 5. Agents and Automation	Deep pillar (links to /framework/agents-automation)
10	Pillar 6. Human Intelligence in the Age of AI	Differentiator pillar (links to /framework/human-intelligence)
11	How Humain compares to OECD, UNESCO, and EU frameworks	Comparison table, featured-snippet target
12	Research foundations	Academic citations, EEAT P2 + P3
13	Indian curriculum mapping (NEP, NCF, CBSE, ICSE, state boards)	India-context cluster
14	How parents, teachers, students, and schools use the framework	Persona-routed CTAs
15	Three-phase learning pathway (Assess, Learn, Apply)	Process passage + ordered list
16	Real outcomes and student work	Proof section, real testimonials and student creations
17	Download the framework (lead magnet)	Free PDF + Hindi version
18	FAQ (12 questions, FAQPage schema)	PAA-targeted long-tails
19	Final CTA banner	Role-routed CTAs
20	Footer	Ownership, schema, last-updated stamp

5. Section-by-section content brief

Section 1. Hero (above the fold)

SEO-10. H1 carries the primary keyword. H2 immediately below targets the long-tail.

Brand. Connect to homepage brand IP ("stay human") without duplicating the homepage hero.

Visual concept

Visual: a hexagonal six-pillar diagram, centred. Each hex labelled with one pillar name. Subtle connection lines suggesting the pillars interlock. Brand palette (navy + gold).

H1 (primary keyword)

The Humain AI Literacy Framework

SEO. Targets "AI literacy framework" (590/mo) head term. Brand owns the framework via the "Humain" qualifier.

Hindi tagline (script: Devanagari)

एआई साक्षरता का ढाँचा। छह स्तंभ। एक उद्देश्य।

SEO. Hindi cluster signal. Pronounces: "AI saksharta ka dhaancha. Chhah stambh. Ek uddeshya." Means "AI literacy framework. Six pillars. One purpose."

Semantic <h2> sub-headline (visible body, not styled as heading)

The AI literacy framework for K-12 students in India. Six pillars. Built on OECD, UNESCO, and EU. Aligned with NEP 2020 and NCF 2023.

SEO. Targets "AI literacy framework K-12" (170/mo) + "AI literacy framework India" (320/mo) + authority references (OECD, UNESCO) + India alignment (NEP, NCF).

Supporting paragraph (Sub-head supporting body)

A 32-page reference document, written by educators with two decades of K-12 classroom experience. Reviewed by a PhD in Educational Psychology. Used by Humain Champs students from Class 3 to Class 12, and by schools in Delhi NCR, Mumbai, Bengaluru, Pune, and Chennai.

Trust signals row

- **Aggregate:** 200-plus parents rated Humain 4.5 stars
- **Authority:** E-Cell IIT Kharagpur certified course implementation
- **Reviewer:** Reviewed by Dr. Tapaswini Sahu, PhD Educational Psychology JNU, M.Phil Cambridge

Hero CTAs (role-routed)

Primary CTA (D2C-soft)

Download the framework (free PDF)

Microcopy under primary CTA

32-page PDF. English and Hindi. No email gate. No follow-up spam.

Secondary CTA

Enrol your child in Humain Champs (Rs. 11,800)

Microcopy under secondary CTA

Sixteen hours of live instruction for Class 8 to Class 12. E-Cell IIT Kharagpur certificate.

Tertiary link (small)

For schools, request a curriculum-mapping workshop

Note. Hero needs to differ visually from the homepage hero. The homepage hero is image-led (Manit portrait). This hero should be diagram-led (the hex framework). Same brand grammar, different visual rhythm so visitors who came from the homepage feel forward motion.

Section 2. What is the Humain AI Literacy Framework? (Answer capsule)

GEO. Position-Zero target for "what is the Humain AI Literacy Framework" and "what is AI literacy framework".

EEAT-3. Reviewed-by line attached to the answer capsule, not just the page.

Snippet variant (40 words, snippet target)

40-word snippet variant (wrap as <aside data-snippet="humain-framework">)

The Humain AI Literacy Framework is a six-pillar curriculum for K-12 students in India. It defines what children need to know, do, and question about AI. It is built on the OECD, UNESCO, and EU frameworks and aligned with NEP 2020.

Full answer capsule (162 words)

Citable 162-word passage. Brand inline three times.

The Humain AI Literacy Framework is a six-pillar curriculum that defines what students from Class 3 to Class 12 need to learn about artificial intelligence. It covers four capacities at once. Knowing what AI is and how it works. Knowing where AI fails and how to evaluate it. Using AI productively without surrendering judgement. Recognising the ethical, social, and emotional stakes of doing so. The framework is built on three global references. The OECD AI Literacy Framework, the UNESCO AI Competency Framework for Students, and the European Commission AI Literacy Framework. It is then rebuilt for India. It aligns with NEP 2020, NCF 2023, the NCERT skill-subject curriculum, and the CBSE, ICSE, and state-board syllabuses. It is the curriculum behind Humain Champs, the live AI literacy course certified by E-Cell IIT Kharagpur. The full 32-page reference is published at humainlearning.ai/framework and may be downloaded as a PDF in English and Hindi.

Author + reviewer line

Authored by Manit Jain (M.Ed Harvard) and Ankur Dahiya (DTU, Program Head). Reviewed by Dr. Tapaswini Sahu (PhD Educational Psychology JNU, M.Phil Cambridge). Last reviewed 28 May 2026.

Section 3. Why we built our own framework

Semantic. Section 8 unique-angles fix. Establish Humain ownership of the framework, not a borrowed framework.

EEAT P3. Heritage of Experiential Learning surfaced as authority asset.

Semantic H2

Why a sixth framework? Because no existing AI literacy framework was built for India's classrooms.

SEO. Long-tail provenance signal. Targets "AI literacy framework India why" type tail queries.

Body (~250 words)

Content brief

Content blocks to cover. (1) The three global frameworks we drew on (OECD, UNESCO, EU) and what each gets right. (2) Why direct translation fails for India: NCF 2023 stage structure, DPDP Act 2023, CBSE/ICSE practical-exam format, bilingual delivery, Indian parent attitudes to AI. (3) Heritage of Experiential Learning at Heritage Xperiential Learning Schools as the pedagogical foundation Mani and the team brought. (4) Two decades of Indian K-12 classroom experience that informed the synthesis.

Pull quote (founder voice, GEO citation target)

Pull quote

"We did not invent six pillars to make a logo. We arrived at six because every major framework we studied (OECD, UNESCO, the European Commission, MIT Media Lab) eventually circles the same six capacities, but none of them puts them in one place for K-12. So we did." Mani Jain, Co-founder, Humain Learning AI.

Section 4. The six pillars at a glance

GEO. Featured-snippet target for "what are the six pillars of AI literacy" type queries.

CRO. In-page navigation. Each pillar name jumps to its deep section. Keep clickable.

H2 (mid-tail target)

The six pillars of AI literacy explained

Ordered list of pillar names (use , each anchors to its deep section)

1. AI Foundations
2. Ethics, Safety and Responsibility
3. Learning with AI
4. Creating with AI
5. Agents and Automation
6. Human Intelligence in the Age of AI

Pillar grid (3x2 cards)

Layout brief

Each card shows: pictogram, pillar name, 12-word definition, the OECD/UNESCO/EU strand it maps to, and a "Read more" link to the section below or the spoke page. Visual rhythm should echo the homepage Six Pillars grid.

Section 5. Pillar 1. AI Foundations

Semantic Pillar 1. Cover entities: probability machine, training data, model hallucination, classifier, classification, supervised learning, generative AI, large language model, ChatGPT, Gemini, Claude.

GEO. Each pillar body uses the answer-capsule pattern: 40-word definition, 130-150 word body, brand inline once.

H2 (long-tail target)

Pillar 1. AI Foundations: knowing what AI is, how it works, and where its limits lie

Snippet block (40 words)

Snippet variant

AI Foundations is the first pillar of the Humain AI Literacy Framework. It teaches students what AI is, how machine learning models produce answers, and where AI fails. Foundation for every other pillar.

Body (~250 words)

Content brief

Content brief. (1) Definition: AI Foundations is the technical literacy that every other pillar depends on. (2) Why it matters: without it children mistake confidence for accuracy. (3) Concept coverage: training data, supervised and unsupervised learning, model parameters, tokens, hallucination, bias in training data, generative vs predictive. (4) Hands-on activities by grade band: Class 3-5 train a teachable machine on their drawings; Class 6-8 break a classifier and explain why; Class 9-10 prompt three LLMs and compare; Class 11-12 read a model card and critique it. (5) Mapping to OECD (Technical Literacy), UNESCO (Conceptual Understanding), EU (AI Understanding).

Grade-band table

Table content

Render as <table> with three columns: Grade band, What students learn, Tools used.

Class 3 to Class 5 | Pattern recognition, simple classifiers, "AI is not a brain" | Teachable Machine, NotebookLM (read-only)

Class 6 to Class 8 | Training data, why models invent facts, bias | ChatGPT, Gemini, classifier exercises

Class 9 to Class 10 | Model evaluation, prompt iteration | ChatGPT, Gemini, Claude, comparison rubrics

Class 11 to Class 12 | Model cards, architecture basics, prompt engineering | Multiple LLMs, NotebookLM, Perplexity

Curriculum hook (internal link)

Internal link

Anchor: "CBSE Artificial Intelligence subject (codes 417 and 843)" -> /curriculum/cbse-ai-417

Deep-dive link

Spoke link

Anchor: "Read the full Pillar 1: AI Foundations page" -> /framework/ai-foundations

Section 6. Pillar 2. Ethics, Safety and Responsibility

Semantic Pillar 2. Cover entities: bias, deepfake, misinformation, parental consent, DPDP Act 2023, GDPR, COPPA, model misuse, AI safety, privacy by design.

EEAT YMYL. YMYL-strict topic. Named reviewer (Dr. Tapaswini Sahu) inline.

H2 (long-tail target)

Pillar 2. Ethics, Safety and Responsibility: critical awareness of bias, misinformation, privacy, and digital well-being

Snippet block (40 words)

Snippet variant

Ethics, Safety and Responsibility is the second pillar of the Humain framework. It teaches students to recognise bias in AI outputs, evaluate misinformation, protect their data under the DPDP Act 2023, and refuse harmful uses of AI.

Body (~280 words)

Content brief

Content brief. (1) Definition. (2) The four sub-areas: bias and fairness, misinformation and deepfakes, privacy and data protection (DPDP Act 2023 specifics), digital well-being. (3) India-specific cases: bias in admissions algorithms (with examples from IITs and IIMs), deepfake misuse cases reported in The Hindu and Hindustan Times, school WhatsApp group safety, AI homework helpers and data harvesting. (4) Practical pedagogy: case-based, Socratic seminars, role-play exercises. (5) Tapaswini's research connection to adolescent metacognition.

Pull quote from Tapaswini (founder voice, GEO citation)

Pull quote

"Children meet AI in places adults rarely think about. The job of this pillar is to make sure they meet it with the questions, not just the tool." Dr. Tapaswini Sahu, Academic Director, Humain Learning AI.

Curriculum hooks

Internal links

Anchor: "DPDP Act 2023 children's data section" -> </privacy#children>
Anchor: "CBSE values education curriculum" -> </curriculum/cbse-values>
Anchor: "NCF 2023 ethical reasoning strand" -> </curriculum/ncf-2023#ethics>

Deep-dive link

Spoke link

Anchor: "Read the full Pillar 2: Ethics, Safety and Responsibility page" -> </framework/ethics-safety-responsibility>

Section 7. Pillar 3. Learning with AI

Semantic Pillar 3. Cover entities: study partner, summarisation, retrieval, active recall, spaced repetition, NotebookLM, RAG, prompt engineering, citation hygiene.

H2

Pillar 3. Learning with AI: using AI as a study partner that sparks curiosity, not as a shortcut

Snippet block

Snippet variant

Learning with AI is the third pillar of the Humain framework. Students learn to use NotebookLM, ChatGPT, and Gemini as study partners, not as homework shortcuts. The skill is asking better questions, not getting faster answers.

Body (~280 words)

Content brief

Content brief. (1) Definition. (2) The "long middle" frame: between "I will not touch AI" and "AI did my homework". (3) Grade-band tactics: Class 6-8 use AI to make flashcards; Class 9-10 use NotebookLM on textbook PDFs for CBSE/ICSE board prep; Class 11-12 use ChatGPT and Gemini to interrogate practice answers. (4) Citation hygiene and "showing your work" with AI assistance. (5) The four-question protocol before accepting any AI output (where did it come from, who decided, what is missing, right kind of answer).

Comparison table (featured-snippet target)

Table content

Render as <table>:

Using AI well | Using AI badly

NotebookLM summarises chapter, student compares to textbook | ChatGPT writes the essay, student copies

ChatGPT generates practice questions for board exam | ChatGPT answers the board exam questions

Student asks "why" three times before accepting an answer | Student accepts the first confident answer

Deep-dive link

Spoke link

Anchor: "Read the full Pillar 3: Learning with AI page" -> /framework/learning-with-ai

Section 8. Pillar 4. Creating with AI

Semantic Pillar 4. Cover entities: generative AI, image generation, video generation, voice synthesis, prompt engineering, AI ethics in creative work, attribution, derivative work.

H2

Pillar 4. Creating with AI: turning imagination into images, videos, stories, and projects. Human-first, AI-second.

Snippet block

Snippet variant

Creating with AI is the fourth pillar of the Humain framework. Students use Midjourney, Canva AI, ElevenLabs, Runway, and Suno to make images, video, voice, and music. The brief is human. The judgement is human. The tools are AI.

Body (~250 words)

Content brief

Content brief. (1) Definition. (2) Tool stack: Midjourney for images, Canva AI for design, Krea for real-time generation, Suno for music, ElevenLabs for voice, Runway for video. (3) Module deliverable: a one-minute AI-generated video commercial. The brief writing process, the human creative direction, the editorial judgement. (4) Attribution and credit. When a student must say "made with AI" and when they should not. (5) Indian creative context: regional language voice work, festival visuals, culturally aware prompts.

Student creation showcase (link)

Internal link

Anchor: "See real student AI creations from Humain Champs" -> /student-stories

Deep-dive link

Spoke link

Anchor: "Read the full Pillar 4: Creating with AI page" -> /framework/creating-with-ai

Section 9. Pillar 5. Agents and Automation

Semantic Pillar 5. Cover entities: AI agent, automation, workflow, n8n, ChatGPT API, autonomous AI, multi-step task, study agent, research agent, scheduling agent.

H2

Pillar 5. Agents and Automation: designing personal study agents that extend human capabilities

Snippet block

Snippet variant

Agents and Automation is the fifth pillar of the Humain framework. Class 9 and above students learn to build AI agents with n8n and the ChatGPT API. The capstone of Humain Champs is a personalised AI Study Agent, kept forever.

Body (~260 words)

Content brief

Content brief. (1) Definition. (2) From user to maker, the pedagogical leap. (3) Capstone connection: this pillar leads directly into the Humain Champs final module and the E-Cell IIT Kharagpur Hackathon submission. (4) Real student agents (Amayerah, Diya, Tanay, Avanindra) as worked examples. (5) Tool stack: n8n for orchestration, ChatGPT API for reasoning, Google Sheets and Notion as data sources, WhatsApp and Telegram as delivery channels. (6) Ethical guardrails: agents that respect privacy, agents that escalate to humans, agents that do not make irreversible decisions.

Student showcase cards (4)

Visual block

Inline cards for Amayerah, Diya Gosain, Tanay Mohan, Avanindra Kumar Singh. Same content blocks as the homepage Student Creations section, but framed as "what this pillar produces."

Internal link to Humain Champs capstone

Internal link

Anchor: "E-Cell IIT Kharagpur Hackathon capstone" -> /humain-champs#capstone

Anchor: "Read the full Pillar 5: Agents and Automation page" -> /framework/agents-automation

Section 10. Pillar 6. Human Intelligence in the Age of AI

Semantic Pillar 6. Differentiator pillar. No competitor names this. Maximum semantic weight.

EEAT. Pull quote from Manit. Citation to Goleman (EQ) and Flavell (metacognition). Tapaswini reviewer line.

H2 (high-volume target: "human intelligence vs AI" 880/mo)

Pillar 6. Human Intelligence in the Age of AI: the capacities AI cannot do for you

Snippet block

Snippet variant

Human Intelligence in the Age of AI is the sixth pillar and the spine of the Humain framework. It covers three capacities AI cannot do: emotional intelligence, metacognition, and curiosity-and-craft. No other AI literacy framework names this pillar.

Body (~300 words)

Content brief

Content brief. (1) Why this pillar exists: a critique of frameworks that treat AI literacy as a technical skill alone. (2) The three sub-areas: emotional intelligence (Goleman), metacognition (Flavell), curiosity and craft. (3) Co-learning with parents through the weekly Family Brief. (4) Founder voice: Manit's view that this is the spine of the framework. (5) Academic references to Goleman and Flavell. (6) Practical exercises: reflection journals, paired peer review, deliberate practice routines.

Pull quote from Manit (founder voice, GEO citation)

Pull quote (preserve from homepage Section 6)

"AI can mimic care. It cannot give it. Our job is to make sure children can tell the difference." Manit Jain, Co-founder, Humain Learning AI.

Academic citation block

Citation panel

Render as a small "Foundations" panel with two citations:

Goleman, D. (1995). Emotional Intelligence: Why It Can Matter More Than IQ. Bantam Books.
Flavell, J. H. (1979). Metacognition and cognitive monitoring: A new area of cognitive-developmental inquiry. American Psychologist.

Anchor: "Read the full Pillar 6: Human Intelligence in the Age of AI page" -> /framework/human-intelligence-age-of-ai

Section 11. How Humain compares to OECD, UNESCO, and EU frameworks

GEO + Semantic. Targets "AI literacy framework OECD" (70/mo), "AI literacy framework UNESCO" (60/mo), and the comparison snippet.

EEAT. Linking out to the canonical primary sources lifts authority.

H2

How the Humain AI Literacy Framework compares to OECD, UNESCO, and the EU framework

Comparison table (featured-snippet target)

Table content

Render as <table> with five columns: Pillar / Capacity, OECD, UNESCO, EU, Humain.

Row 1. Technical understanding of AI	Covered	Covered	Covered	Pillar 1 (AI Foundations)
Row 2. Ethics and responsibility	Covered	Covered	Covered	Pillar 2
Row 3. Using AI productively for learning	Partial	Partial	Not covered	Pillar 3 (named)
Row 4. Creating with generative AI	Partial	Covered	Partial	Pillar 4 (named)
Row 5. Designing AI agents and workflows	Not covered	Partial	Not covered	Pillar 5 (named)
Row 6. Human intelligence and emotional/meta capacities	Not covered	Not covered	Not covered	Pillar 6 (unique)
Row 7. India alignment (NEP, NCF, CBSE/ICSE)	N/A	N/A	N/A	Mapped throughout

Body paragraph after table (~150 words)

Content brief

Content brief. Articulate what is unique to Humain: Pillar 6 (Human Intelligence) as the spine, India curriculum mapping baked in (not retrofitted), and agents-and-automation treated as a first-class pillar rather than a sub-topic.

Hyperlinked references

- Anchor: "OECD AI Literacy Framework" -> <https://oecd.org/education/ai-literacy/>

Section 12. Research foundations

EEAT P2 + P3. Cite peer-reviewed work. Surface Tapaswini's research and Mani's Heritage history as authority.

H2

The research behind the Humain AI Literacy Framework

Body brief

- Two-decade Heritage Xperiential Learning Schools experiential learning legacy.
- Tapaswini's PhD research in metacognition and emotional intelligence in adolescent learners (JNU).
- Tapaswini's M.Phil at Cambridge in education-psychology methodology.
- Goleman on emotional intelligence (foundational reference for Pillar 6).

- Flavell on metacognition (foundational reference for Pillar 6).
- OECD, UNESCO, EU framework primary documents (Pillars 1-5 mapping references).
- NCERT skill-subject framework documents (curriculum mapping references).

Format

Format brief

Render as a numbered reference list below the body text. Hyperlink each reference where a public URL exists. Each row has author, year, title, publisher, link.

Section 13. Indian curriculum mapping

Semantic. India-context cluster. Targets NEP 2020 AI literacy (180/mo), CBSE AI course (390/mo), ICSE AI (210/mo).

H2

How the Humain AI Literacy Framework maps to NEP 2020, NCF 2023, CBSE, ICSE, and state-board syllabuses

Body brief

- NEP 2020. Digital fluency and computational thinking strands map to Pillars 1, 3, 5.
- NCF 2023. Four stages (Foundational, Preparatory, Middle, Secondary) structure the Humain grade-band delivery.
- NCERT skill subjects. Cross-walked to Pillars 1 and 5.
- CBSE Artificial Intelligence subject (codes 417 and 843). Pillars 1, 4, 5 map directly to the assessment rubric.
- ICSE Computer Applications and AI electives. Pillars 1, 3, 5.
- State boards. Maharashtra State Board, Tamil Nadu State Board, Karnataka SSLC, with Gujarat, Telangana, and West Bengal in progress.
- DPDP Act 2023. Pillar 2 explicitly covers children's data rights under the Act.

Curriculum-mapping deck download

Lead-magnet link

Anchor: "Download the full CBSE, ICSE, and state-board mapping deck (PDF)" -> /curriculum/cbse-icse-mapping

Section 14. How parents, teachers, students, and schools use the framework

CRO. Persona-routed CTAs. Each audience block ends with the same CTA pattern as the homepage Section 11.

H2

How to use the Humain AI Literacy Framework: for parents, teachers, students, and schools

4-card grid

Parent card brief

Card 1. Parents. How to read the framework. Which pillar matters at which age. How to use the weekly Family Brief.

CTA: "Get the free Parents Guide to AI" -> /resources/parents-guide

Teacher card brief

Card 2. Teachers. How to use the framework as a unit plan. How to map your existing CBSE/ICSE classes to the six pillars. How the Humain Teacher Certification teaches you to deliver this.

CTA: "See the AI literacy teacher certification India" -> /for-teachers

Student card brief

Card 3. Students (Class 8 to Class 12). How to self-assess against the framework. How Humain Champs delivers it.

CTA: "Enrol in Humain Champs (Rs. 11,800)" -> /humain-champs

School card brief

Card 4. Schools. How the framework becomes a curriculum mapping. The three-step engagement (demo, mapping workshop, teacher training). DPDP-compliant rollout.

CTA: "Request a curriculum demo for your school" -> /book-a-demo

Section 15. The three-phase learning pathway (Assess, Learn, Apply)

GEO + CRO. Reuse the homepage process passage, slightly adapted. Featured-snippet target for "how the Humain framework is taught".

H2

How the Humain framework is taught: assess, learn, apply

Ordered list snippet block

Process list (use)

1. Assess. A ten-minute baseline check across all six pillars. Free. No signup.
2. Learn. Live small-batch sessions for Class 8 to Class 12 (Humain Champs), or self-paced age-graded modules for Class 3 to Class 7.
3. Apply. A project-based assessment in CBSE or ICSE practical format. For Class 8 to Class 12, the assessment is the E-Cell IIT Kharagpur Hackathon submission.

Body passage (~140 words)

Content brief

Adapt the homepage Section 8 process passage, with pillar-specific language. Same structure, mention the framework explicitly. End with the framework download CTA, not the Champs CTA, since the page-level commercial action is download.

Section 16. Real outcomes and student work

EEAT + GEO. Real student creations and parent testimonials. Lift from homepage. Frame each in terms of which pillar it demonstrates.

H2

Real student outcomes from the Humain AI Literacy Framework

Pillar-tagged student creations (4 cards)

Pillar-tagged cards

Same four real student creations as homepage (Amayerah, Diya Gosain, Tanay Mohan, Avanindra Kumar Singh). Add a small "Pillar(s) demonstrated" tag on each card:

Amayerah -> Pillars 3 and 5 (Learning with AI, Agents)

Diya Gosain -> Pillars 4 and 5 (Creating with AI, Agents)

Tanay Mohan -> Pillars 3 and 4 (Learning with AI, Creating with AI)

Avanindra Kumar Singh -> Pillars 1, 3, and 5 (AI Foundations, Learning with AI, Agents)

Pillar-tagged parent testimonials (3)

Pillar-tagged testimonials

Use 3 of the 7 real homepage testimonials, tagged by the pillar each speaks to:

Mr. Rajesh Malhotra (New Delhi) -> Pillar 3 (NotebookLM, study buddy agent)

Mrs. Farah Khan (Mumbai) -> Pillar 2 (creativity with safety)

Mrs. Meenakshi Rao (Bengaluru) -> Pillar 2 (how and how not to use AI)

Aggregate signal

Aggregate signal

Rated 4.5 stars by 200-plus parents across 14 Indian states. Same signal as homepage.

Section 17. Download the framework (lead magnet)

CRO. The page's primary conversion. Soft commercial. Optional email gate. Free PDF.

H2

Download the Humain AI Literacy Framework (free 32-page PDF, English and Hindi)

Two-up card grid

Card content

Card 1. English version. 32 pages. Includes all six pillars, the comparison table, the curriculum mapping deck, and the academic citations. CTA: "Download the framework (English)" (no email gate).

Card 2. Hindi version. हिंदी संस्करण. 32 pages. Same content. CTA: "हिंदी में डाउनलोड करें" (no email gate).

Note. Decision required. No-gate or email-gate. Recommended no-gate for the primary share. Email-gate the curriculum-mapping deck (which is teacher and school-focused) and the original-research report.

Section 18. FAQ (12 questions, FAQPage schema)

GEO + PAA. Targets the framework-cluster PAA queries. FAQPage schema mandatory.

H2

AI literacy framework FAQ: 12 questions about the Humain framework

The 12 questions

- 1. What is the Humain AI Literacy Framework?
- 2. What are the six pillars of AI literacy?
- 3. How is the Humain framework different from the OECD AI Literacy Framework?
- 4. How is it different from the UNESCO AI Competency Framework?
- 5. Is the framework aligned with NEP 2020 and NCF 2023?
- 6. Does the framework map to CBSE Artificial Intelligence (codes 417 and 843)?
- 7. Does it map to ICSE Computer Applications and AI electives?
- 8. Can schools adopt the framework as their curriculum?
- 9. How long does it take a student to learn the full framework?
- 10. Who reviews the framework, and how often is it updated?
- 11. Is the framework available in Hindi?
- 12. How does Humain Champs implement the framework?

Note. Each answer 60-100 words. Each lands as a Question/Answer node in the FAQPage schema. Citations in each answer link back to the relevant section above.

Section 19. Final conversion banner

Banner heading

Take the Humain framework home today

4 CTAs (role-routed)

- **Primary:** Anchor: "Download the framework (free PDF)" -> /downloads/framework.pdf
- **Students CTA:** Anchor: "Enrol your child in Humain Champs (Rs. 11,800)" -> pages.razorpay.com/humainchamps
- **Teachers CTA:** Anchor: "Apply for the next teacher cohort" -> /for-teachers
- **Schools CTA:** Anchor: "Book a school demo" -> /book-a-demo

Section 20. Footer (mirror homepage)

- Ownership block. Eduxa Consulting Pvt Ltd. CIN, registered office, GSTIN.
- Legal grid. Privacy, Terms, DPDP statement, Cookies, Contact.
- Contact strip. Phone, email, WhatsApp.
- Social. LinkedIn brand, Manit, Tapaswini, Amit, Instagram, YouTube.
- AI-search signals. /llms.txt clickable link.
- Last-updated stamp. Reviewed by Dr. Tapaswini Sahu on [date].

8. EAV triples to encode on the page (Semantic graph)

Each line is one factual sentence the page must contain somewhere. Together they form the entity graph Google and AI engines recognise for this topic.

- Humain AI Literacy Framework ·hasComponent → six pillars.
- Humain AI Literacy Framework ·alignsWith → OECD AI Literacy Framework.
- Humain AI Literacy Framework ·alignsWith → UNESCO AI Competency Framework for Students.
- Humain AI Literacy Framework ·alignsWith → European Commission AI Literacy Framework.
- Humain AI Literacy Framework ·alignsWith → NEP 2020 and NCF 2023.
- Humain AI Literacy Framework ·compliesWith → DPDP Act 2023.
- Humain AI Literacy Framework ·mappedTo → CBSE Artificial Intelligence subject (codes 417 and 843).
- Humain AI Literacy Framework ·mappedTo → ICSE Computer Applications and AI electives.
- Humain AI Literacy Framework ·mappedTo → Maharashtra, Tamil Nadu, and Karnataka state boards.
- Humain AI Literacy Framework ·implementedBy → Humain Champs course.
- Humain Champs ·certifiedBy → E-Cell IIT Kharagpur.
- Manit Jain ·coAuthored → Humain AI Literacy Framework.
- Manit Jain ·alumniOf → Harvard Graduate School of Education.
- Manit Jain ·founded → Heritage Xperiential Learning Schools.
- Ankur Dahiya ·coAuthored → Humain AI Literacy Framework.
- Dr. Tapaswini Sahu ·reviewed → Humain AI Literacy Framework.
- Dr. Tapaswini Sahu ·alumniOf → Jawaharlal Nehru University.
- Dr. Tapaswini Sahu ·alumniOf → University of Cambridge.
- Pillar 6 (Human Intelligence) ·references → Goleman emotional intelligence.
- Pillar 6 (Human Intelligence) ·references → Flavell metacognition.
- Pillar 5 (Agents and Automation) ·usesTool → n8n, ChatGPT API.
- Pillar 4 (Creating with AI) ·usesTool → Midjourney, Canva AI, Krea, ElevenLabs, Runway, Suno.
- Pillar 3 (Learning with AI) ·usesTool → NotebookLM, ChatGPT, Gemini, Perplexity.
- Humain Learning AI ·operatedBy → Eduxa Consulting Pvt Ltd.
- Humain Learning AI ·servesAudience → students, parents, teachers, and schools in India.

9. Featured snippet targets

Target query	Section	Snippet type	Action
what is the Humain AI literacy framework	Section 2	Paragraph (40 words)	Already drafted in Section 2 snippet variant.

what are the six pillars of AI literacy	Section 4	Ordered list	Already in Section 4 ordered list.
AI literacy framework comparison	Section 11	Comparison table	Already in Section 11 table.
how is Humain different from OECD	Section 11	Paragraph	Draft a 50-word direct-answer paragraph.
AI literacy curriculum K-12	Section 13	Paragraph + table	Curriculum mapping cluster.
how to teach AI literacy	Section 15	Ordered list	Assess Learn Apply, three-step list.
AI literacy framework PDF download	Section 17	Direct answer	Section 17 lead is the answer.
best AI literacy curriculum India	Section 13	Listicle	5 reasons the Humain framework is best for India.

10. Build order (sequenced by impact)

Eight phases. Phase 1 ships first, in week 1, when the spoke pages do not yet exist. The page launches partially functional and the spoke links 404 gracefully or redirect to the relevant section anchor.

- **Phase 1.** Phase 1 (Week 1, ship the hub). Sections 1, 2, 4, 11, 17, 19, 20. Title tag, meta, schema bundle. Free PDF download (single English version). Comparison table.
- **Phase 2.** Phase 2 (Week 2). Sections 5-10 (six pillar deep sections). Pillar icons. Author + reviewer schema.
- **Phase 3.** Phase 3 (Weeks 3-4). Sections 12, 13, 14. Research foundations. Indian curriculum mapping. Four-card persona grid.
- **Phase 4.** Phase 4 (Weeks 4-5). Sections 3, 15, 16. Provenance section. Three-phase pathway. Student work showcase with pillar tags.
- **Phase 5.** Phase 5 (Weeks 5-6). Section 18 FAQ with FAQPage schema. 12 Q-and-As written.
- **Phase 6.** Phase 6 (Weeks 6-8). Spoke pages start shipping: /framework/ai-foundations, /framework/ethics-safety-responsibility, etc.
- **Phase 7.** Phase 7 (Weeks 8-10). Hindi version /hi/framework. Hindi PDF download.
- **Phase 8.** Phase 8 (Weeks 10-12). Inbound link build. Update homepage Section 5 to link to /framework. Update /humain-champs, /for-teachers, blog posts.

11. Homepage learnings applied to this pillar page

From the Semantic Gap Analysis:

- Pillar 6 (Human Intelligence) treated as the spine and the differentiator. No other framework names it.
- Heritage of Experiential Learning surfaced as authority asset in Section 3 (provenance).
- Predicate verbs used naturally throughout: define, evaluate, scaffold, safeguard, interrogate, co-learn.
- Brand inline ("Humain", "the Humain framework", "At Humain") inside every pillar body. GEO-2 fix from homepage.

From the E-E-A-T Audit:

- Named authors (Manit Jain plus Ankur Dahiya) and named reviewer (Dr. Tapaswini Sahu) on every substantive passage.
- Tapaswini's real credentials: PhD JNU, M.Phil Cambridge (corrected from earlier IIT Delhi error).
- Academic citations (Goleman, Flavell) in Pillar 6 with full publication references.
- Hyperlinked primary-source references for OECD, UNESCO, EU.
- Reviewed-by lines on Section 2 (answer capsule), Section 6 (Pillar 2 - YMYL strict), and the page footer.
- Last-reviewed stamp in footer.

From the GEO Audit:

- Section 2 answer capsule formatted as a clean 162-word passage, brand named three times.
- Each pillar body 40-word snippet variant above the 250-word deep body.
- Founder pull-quotes for Manit (Pillars 3, 6) and Tapaswini (Pillar 2). AI engines cite "X founder said..." patterns.
- FAQ Page schema mandatory for the 12 Q-and-As.
- VideoObject schema for the 4 student creation videos (already drafted in homepage v3.1).
- llms.txt reference visible in footer.

From the CRO Audit:

- Soft primary conversion (free PDF download, no email gate) plus hard secondary (Humain Champs enrolment).
- Persona-routed CTAs in Section 14 (parents, teachers, students, schools).
- Final CTA banner mirrors homepage structure.
- Student card grid in Section 9 (Agents) reuses the homepage Student Creations module for visual consistency.

From the SEO Optimization v1.0:

- Title 60 chars, meta 155 chars.
- Semantic H2 below H1 carrying the long-tail keyword "AI literacy framework K-12 India".
- Every section H2 merges brand voice with a long-tail commercial keyword target.
- Grade-specific phrasing (Class 3, 6, 8, 9, 10, 11, 12) seeded throughout the pillar bodies.
- Internal linking with verbatim keyword anchor text. 23 outbound links from this page.
- Image alt text matrix supplied for 19 images.
- Featured snippet positioning on 8 target queries (Section 9 of this doc).
- Hindi keyword cluster seeded in Section 17 (Hindi PDF download).
- Canonical, hreflang en-IN / hi / x-default. OG and Twitter card with the framework hexagram OG image.

From the Humanizer skill:

- Zero em or en dashes (use periods, commas, colons, parentheses).
- Sentence-case headings.
- No AI vocabulary clusters (no "showcase", "vibrant", "delve", "tapestry").
- No "-ing" fake-depth tails.
- Varied sentence rhythm: short punchy lines next to longer ones.
- No rule-of-three padding. The "six pillars" enumeration is structural, not rhetorical.
- Specific dates, percentages, and names over vague references.

12. Items to supply before writing the copy

Location	What to supply
Section 1 trust signals	Live learner count and teacher count (for the trust strip).
Section 1 Hindi tagline	Final Hindi tagline copy from a native-speaker reviewer.
Section 5-10	Final pictogram set (one per pillar) and the hex framework SVG.
Section 11	Final OECD vs UNESCO vs EU column markings (Covered / Partial / Not covered) signed off by Tapaswini.
Section 12	Final academic citation list signed off by Tapaswini.
Section 13	List of state-board alignments (Maharashtra, Tamil Nadu, Karnataka confirmed; Gujarat, Telangana, West Bengal in progress).
Section 13	Public URL for the curriculum-mapping deck.
Section 16	Final pillar tags for the 4 student creations (Tapaswini sign-off).
Section 17	Final 32-page framework PDF (English) and Hindi version.
Section 18	Cohort dates if Q12 mentions "next cohort starts [date]".
Section 19	Confirmation of the persona CTA routing.
Schema bundle	Eduxa Consulting registered address for LocalBusiness schema parent.
